## Easy access to all your lists

**All the lists you've made and all the lists other people are sharing with you are displayed on your "My Lists" screen.**

Your My Lists page shows you your list of lists. The number of items remaining are listed, as is a note if the list is being shared with others. Finally, the dot in front of the to-do list indicates how much is left to do in a list — the bigger the dot, the more outstanding items there are. It's a quick way to gauge how much is left to get done.

You can share this list in two ways

1. You can publicly share the list by checking the box below and giving out the URL. Note that public lists can only be edited by you.  
 Yes, allow anyone to see this list
2. You can privately share a list so only certain people can see it. To privately share a list, enter email addresses below. They'll get a special link where they'll be able to add, edit, and check items off the list.
